

FloMAX Diesel Fuel FN600 Nozzle & FR-RS Receiver Advantages

FN600 Diesel Fuel Nozzle

**Economical Price
Includes Plug and
High Flow Swivel**

Superior Performance*

up to 53% reduction in back pressure
a 37% higher flow swivel
tested to 180 gallons per minute flow rate

Lower Initial Cost*

lower system price
nozzle base price includes plug and swivel
customizable piston actuation

Longer lasting*

all metal construction (no plastic)
investment cast housing
heat-treated stainless steel wear components
anodize aircraft grade aluminum non-wear parts
delron bushings eliminate metal to metal wear
superior stainless steel dog latching mechanism
plug/bumper assembly gives complete nose seal
electrolis nickel-plated steel cylinder for added
durability and lubricity

Reduced Maintenance Cost*

all parts readily available
designed with replaceable assemblies
economical to rebuild

* compared to competitor's nozzle with competitor's receiver

FR-RS Fuel Receiver with Removable Sleeve

Designed to enable replacement of worn receiver
wear surfaces without draining the fuel tank

The FR-RS removable sleeve is easily
unscrewed from the FR-RS body

The poppet assembly
is completely internal
